CLERGY INDORSE JOURNAL POLICY.

Grand Master Harburger Also Commends the National Platform.

Julius Harburger, Grand Master of the Independent Order of the Free Sons of Israel, addressed Zion Lodge at No. 335 Bowery last night, and made a strong plea for expansion, warmly indorsing the Journal's policy. He said: "The fortunes of war placed within our grasp certain territory that once

belonged to Spain. More than seven million human beings in the Philippines, who have been under the cruel and oppressive rule of Spain, now hope for freedom. Justice and humanity and liberty demand that we shall hold this territory; that we shall set these millions free and place them in the path of progress.

"I have no sympathy with those persons who declare that these islands shall be returned to Spain because from them we can reup no profit. That is a sordid and mercenary view to take. The question of profit will work itself out in the natural march of events.

"Spain has injected this question into the Regotiations, and we have dis-

cussed it with her, but in the American heart the question of cash Mothy Complexions, Red, enters into the matter in no shape whatever. We are to keep the Philippines, either by force of our guns or by the power of diplomacy.

"We are to do other things in the line of extending our territory, and 'f Thin and Falling Hair and benefiting the whole world. The Nicaragua Canal must be built. Sooner or later this Government will build it,

"We must increase our navy, create schools for the educa- vented by tion of soldiers and sailors; we must build up our naval reserve and, in short, we must march forward or we will be forced to march backward. Many of our leading newspapers, among them the New York Journal, have set forth the needs of advancement. A few small, tearful men are projesting against it, but the broad-minded men of advanced thought will surely win. In this class I think we can reckon the men of our race.

WE MUST KEEP PHILIPPINES. SAYS REV. DR. HEBER NEWTON.

The Rev. R. Heber Newton, at All Souls' Church, preached a sermon yesterday in memory of the soldlers and sailors who died for their country in the war with Spain.

The war, he said, had proved the kind of stuff that American manhood was nade of: it had proved that there was no fear of degeneracy in the splendid types of American manhood.

The prencher criticised the War Department in its administration during the war and said that it was a shame to the nation that better provision had not been made for the men at the front and in camp. Excuses had been made before the commission investigating the matter that the men bad not complained. This was so much the worse, and only went to show the patience of the men. Thanks should be given that the war had united the whole country and that there were no longer any discountry.

Save Your Hair Warm shampon

viding lines, and that all sectionalism had been wiped out.

The preacher said that the war had shown the rottenness of the body politic. One of the great departments of the nation had been shown to be honeycombed with

"Providence," said Dr. Newton, "had placed the Philippines in our hands and we could not give them back to Spain or give them to any foreign nation. We should exercise a protectorate over them."

REV. DR. TOWNSEND SAYS EXPANSION IS OUR EXCELSIOR AND INEVITABLE.

Despite the storm a large congregation gathered in the All Angels' Church, Eighty-first street and West End avenue, yesterday morning to dear the pro-expansion sermon of the pastor, Rev. Dr. S. De Lancey Townsend. His text was "Thy kingdom come." He said:

every effective race has been the result of brook fusion, race fusion; every effective language is the result of fusion.

The only thing before us, now that our eyes are opened to the heavenly vision, is abdication or progress, growth and expansion. Expansion is our excelsior! Why should we be afraid of expansion, since the only alternative is contraction? "Will the people of this nation pray 'Thy Kingdom come,' and turn back these

people into the ands of the oppressor, or barter them among the nations like cattle of the stall, or worse than all, surrender them to their own ignorance and incapacity and all the evil consequences so inevitable in such a case? Or shall a redeemed and grateful people erect in all high places the statue of an American soldier with the immortal legend and apostrophe. 'War as it is waged by a Chris-

EXPANSION POLICY WILL MEAN STRENGTHENING OF THE UNION.

The Rev. Ferdinand C. Iglehart preached in the Trimty Memours. Church, in Newburg, N. Y., last night on "The Philippine Islands and Our Relation TASSEL Sutphen

'Many excellent people think that the retention of the Philippines will involve a policy of expansion which is un-American and which will burt the nation The old perplexing problems were still unsolved when the Texas, Mexican and Alaskan additions were made, including an area thirteen times as large as the whole Philippine archipelago, and made up of allen peoples with strange languages and

"This policy of expansion has not cracked the Constitution, nor burst the American Union. It has strengthened both, as the possession of our new territory will do,

'In the conflict just closed between barbarism and civilization, between moral evil and Christianity, the laste was settled by the man behind the gun, and by Popular Monthly the God behind the man behind the gun. "We have national weaknesses, sins, dangers, but we have such

faith in American Institutions, faith in the faith in the intention of Providence to use us for the evangelization of the race, that we believe He will enable us still to explode ancient superstitution, to pull down the walls of hoary systems, to stab autocracy to the heart, to hang Anarchy from the beam and to seatter the seeds of liberty, education and piety to the broad fields of

NO TRUE AMERICAN HEART

SHOULD SHRINK FROM DUTY.

Rev. Arthur Newton Thompson, pastor of the Westminster Presbyterian Church, Jersey City, last night preached on "God's Hand in the Development of Our Country." He said:

"The victories in Manila Bay have imposed upon us larger powers and undreamed of responsibilities. Our duties toward a benighted population which God has thus, in His own way, thrown under our national sceptre , are duties from which no true American heart should shrink.

TERESA WAS SAFE.

He Declares the Ports Were Tampered With and That There Was No Reason for Deserting Her.

Second Officer Edward Webber, of the Antilia, who visited the stranded Spanish

Antilia, who visited the stranded Spanish cruiser Maria Teresa on November 12, first saw the statement yesterday by Lleutenant Summer, of the Vulcan, who declared that the ports found open by Webber had been smashed in by the seas. The lieutenant said he did not pur much faith in the report of Second Officer Webber.

"His statement that the ports were smashed in by the seas is untrue," said Webber. "If the seas had smashed in those ports they would have been smashed inboard. As a matter of fact, they were not smashed at all, but swung outboard. When closed these ports each hare an iron har across them on the inside, secured by turn buckles. The turn buckles had been mastrewed and the bars removed.

"There were witnesses present who saw the open ports and who noffeed, as I did, that they were swung out and rot sonshed, it is tron, also, that the natives who boarded the vessel after size stranded united is the statement that there was brittened that is proof that when she stranded the hull was perfectly tight.
